 **OPENCHAIN**

Compliance – A gateway to access

How do I trust my open source supply chain?

The OpenChain Project defines the key requirements for a quality compliance program.

OpenChain is a simple, effective standard for organizations of all sizes in all markets.

OpenChain Defines Inflection Points

Companies have the flexibility to decide the content of each specific process, policies and training.

Our Online Self-Certification Questionnaire

► G1: Know Your Open Source Responsibilities 0 answered out of 12

► G2: Assign Responsibility for Achieving Compliance 0 answered out of 8

► G3: Review and Approve Open Source Content 0 answered out of 8

▼ G4: Deliver Open Source Compliance Artifacts 0 answered out of 3

Yes Do you have a documented procedure that describes a process that ensures the Compliance Artifacts are distributed with Supplied Software as required by the Identified Licenses?

Yes Do you archive copies of the Compliance Artifacts of the Supplied Software?

Yes Are the copies of the Compliance Artifacts archived for at least as long as the Supplied Software is offered or as required by the Identified Licenses (whichever is longer)?

► G5: Understanding Open Source Community Engagements 0 answered out of 3

► G6: Adherence to the Specification Requirements 0 answered out of 2

If a company can answer “Yes” to each question they are OpenChain Conformant.
